FRONTLINE SUPPORT UNIT (FSU):

The Frontline Support Unit (FSU) program is a differential response strategy that focuses on call management. This includes responsibility for the OPP's Citizen Self-Reporting (CSR) system which is an online police reporting system for members of the public to report specific occurrences directly to the OPP via the Internet. The FSU model will offer a call handling alternative for select calls for service allowing the deployment of resources to critical incidents or member engagement in proactive police activities. Through the use of technology, the OPP continues to improve our processes and service delivery in support of its vision.
